\*\* The converted Metric Dimensions of the ID are the minimum and of the OD are the maximum dimensions per each products Standards. Nominal Metric Bolt Diameters are suggested and not engineered interchanges for the specific washers noted.

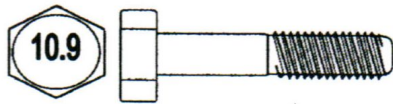

\*\*\* If product was mfg to Min Standards the Nominal Metric would not fit. Prior to packaging, product was checked to insure that actual ID would accommodate the Nominal Metric Bolt Diameter noted.

\* Qty's & Wts are approximate due to possible variances in the mfg process.
